**PLATFORM AND RESOLUTIONS**  
The following platform and resolutions were adopted by the Republican State Convention, which

**RESOLVED:** That the question of a sufficient supply of circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the national banks, without regard to the necessities of people or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the

tion to the national banks without interest, and subversive of the rights of the people, oppressive, unjust and should be repudiated. That a financial policy whereby both gold and silver are taken out of circulation, and the money, whether the money used by the people in coin, or coin certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

That the attempt to substitute national bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the

Government to issue money, and to fraudulently demonetize silver and steal the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for government and law. We demand that the ring or trust be destroyed, and equal rights be restored to all the people.

We charge that President Cleveland is the willing tool of agents of a powerful money trust, which fattens on the revenues of the Government, makes war on silver, issues the paper currency at the expense of the

That the trick of the President and his

**RESOLVED**, That we are in favor of the protection of home industry, and that the laborer of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages, and to that end will protect the wage-workers from competition with the cheap labor of other lands.

III.

We charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail service, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his administration to prevent appropriations for

to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the allied States and with joining the foreign bondholders to monopolize silver and destroy the industries of his own country, and for the reduction of the wages of the Mint employees. At Carson, the Government building was not only self-sustaining but a source of revenue to the Government, for his contemptuous votes of bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson

IV.  
We are in favor of the absolute exclusion of Chinese, and of the restriction of immigration by which the overcharged condition of the labor market is made worse, and of any legislation by which a revision of our naturalization and land laws may be accomplished.

V.  
We demand in behalf of our various industries the retention of the duties on lead, borax, soda, hides and leather, and to restore the tariff of 1897 on wool.

RESOLVED, That we recognize the right of labor to organize for its lawful protection.

VII.

We favor the appropriations by Congress for hydrographical and topographical surveys in this State, to the end that the waste waters may be preserved for the purpose of irrigation.

VIII.

We endorse the wise and conservative administration of Governor Stevenson, and we heartily commend the able efforts of

IX.

We favor the granting to Nevada of all Government lands within the State for the purpose of providing means for irrigation and other improvements.

X.

We favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for the sea coast, the erect-

It is the duty of this State to maintain free, non-sectarian schools in the rural and sparsely settled districts, as well as in towns and thickly populated sections, and to secure that the State Treasury may be made so well furnish those means of education to all children of the State.

XIII.  
We demand the restoration of the mail  
service in this state to the efficiency, qual-  
ified by the best Republican administration,  
and favor the payment of full wages  
to all postal employes.

**FOR PRESIDENT,**  
 BENJAMIN HARRISON,  
 Of Indiana.  
**FOR VICE-PRESIDENT,**  
 LEVI P. MORTON,  
 Of New York.

MONDAY.....JULY 9, 1888

If it were only to its past that the Republican party could point in asking for place and power, the young voter might hesitate in his decision. But the Republican party to-day stands upon precisely the same fundamental principles, a devotion to which saved the nation and gave it a foremost place among the peoples of the earth. It believes in the fullest defense and promotion at all times and in all places of equal political and civil rights of all citizens of the United States; and it will devote itself to the accomplishment of these ends for the essential welfare of all. So long as fraud, intimidation and force deprive one million of the colored Southern voters of this country of the rights which are indisputably theirs, so long the work of the Republican party has not been finished. So long as the protection which is due American production, industry and labor are menaced by a party, the successful accomplishment of whose scheme would be to flood the country with foreign products, and to turn our prosperous commercial and manufacturing population into hewers of wood and drawers of water for Europe, so long the power of the Republican party is needed to thwart such designs.

For more than this the truly grand old party is needed. It is needed, says an exchange, to diminish excessive revenues by lifting the burden of internal taxation from our own people; it is needed to protect and preserve the credit and dignity of the nation with the European powers before which the present administration has made our statecraft a mockery and our dignity a farce. It will correct abuses, eliminate the evils and lop off the excrescences which a facile President has permitted to fasten upon the civil service. It will see to it that in year as well as in peace this nation is prepared at once to take and maintain the mighty position which is due her greatness and that she be not left a prey to any fourth rate power greedy of glory. It will see that the superabundant wealth of the nation is wisely expended in paying her just debts and in developing and constructing internal improvements to unite more closely the widely separated parts of our vast domain. And finally it says to the voter: We do not ask your support upon evasive generalities; we set before you the ends we seek to obtain; if they are in your judgment worthy, your voice and your vote will be given with that view. Thus in effect the Republican party speaks to the people of the nation. This it was that General Harrison meant in accepting the Republican Presidential nomination so appropriately tendered him upon the day of our Independence, when he said: "The day you have chosen for this visit suggests no thoughts that are not in harmony with the occasion. The Republican party has walked in the light of the Declaration of Independence. It has lifted the shaft of patriotism upon the foundation laid at Bunker Hill. It has made good the perfect Union, secured by making all men free. Washington and Lincoln at Yorktown and Appomattox, the Declaration of Independence and the Proclamation of Emancipation are naturally and worthily associated in our thoughts to-day."

When the present term of office of Mr. Mills of Texas expires he is apt to enter upon a political sleep, which will know no waking. "John was a good man, but he did not know too much about thrashing machines," was the widow's comment when her husband was brought home to her in fragments. It is just so with Mr. Mills and the tariff. The Texas State convention of farmers, laborers and stock-raisers has just met and adopted a platform denouncing Mr. Mills and his bill and demanding the repeal of the internal revenue laws. Upon his return home the gifted author of this proposed revenue measure will doubtless be struck with the Arctic frigidity of the Texan climate.

"What's the matter with electricity?" asked the young chief of the New York "Whites" when the judge sentenced him to death by hanging. "Nothing is the matter," explained the "Whites," as his lawyer explained to him, except that it does not begin to electrify until the first of next January. Meanwhile experiments are rapidly being prosecuted in New York and satisfactory apparatus and power have been procured. These experiments naturally have not been practiced upon human beings, but many a dumb animal has already given up his life for the future sake of some worthy citizen's animal, and the victims of the

## ON THE WAVE.

"WASHOE" WRITES FROM  
 MID-OCEAN.

**Nevadans on Their Travels—An Authority Discusses the Danger of Contagion From Leprosy.**

Special Correspondence GAZETTE.  
 STEAMER AUSTRALIA,  
 Pacific Ocean, June 23, 1888.

Editor GAZETTE: Every State in the American Union affords special facilities for travel. To this broad assertion Nevada is no exception. But two weeks ago to day I rode from Truckee to Reno, traveling by stage through the Sierra forests to Tahoe City, thence around the lake to Glenbrook and over the divide along Bliss' dune to Carson. With the completion of the Carson & Colorado and the Nevada & California railroads the people of Western Nevada can, in forty-eight hours, travel into Mexico or the British possessions. And with the fleet vessels of the Oceanic Steamship Company, which sail from San Francisco, a Nevada can land himself in a week at Honolulu, in a month at Auckland and in two months at Calcutta. The steam engine and the exigencies of trade have made the circumnavigation of the globe but a vacation journey.

A clear summer sky looked down on the bay of San Francisco last Tuesday as my feet first trod the deck of a Pacific ocean steamer which was moored at the dock near the foot of Market street. The same noisy, busy crowd thronged the wharves that I have seen in New York and Liverpool immediately before the departure of a vessel for a distant port. Hackmen, draymen, mail carrier, messenger boys, officers of the ship, the crew, passengers and their friends, idle but curious lookers-on, all were there, shouting, calling, talking, looking as circumstances required, or as inclination suggested. On board I found the Hon. T. S. Young, Mr. and Mrs. H. M. Yerington, Master Herbert Yerington, Mrs. W. D. and Miss Ada Toby and Mrs. John G. Fox of Nevada, who had come down to see friends off on the "Australia." Mr. Young introduced me at once to Harry Gillig, of Virginia City, who, like myself, is bound for Honolulu, and Senator John Forbes and Mr. Jim Yerington, who are setting out for a journey around the globe via the Sandwich Islands, New Zealand, Australia, India, the Suez Canal, Egypt, Asia, France, England and Canada, with numerous side trips to points of the greatest interest. Two o'clock in the afternoon is the usual hour for the departure of the vessels of the Oceanic Steamship Company, but the Australia was delayed a trifle by the cases of a leper, an unfortunate half-breed Hawaiian child, whose parents were sending her from the islands to Europe for medical treatment. The San Francisco authorities had refused to permit the child to land until the day of our departure. She had a horrid face, swollen and lacerated with the dreaded and fatal black spots that accompany this hitherto incurable disease. I find in talking with the others and the crew of our ship that none of them believe leprosy to be contagious and I discovered from residents of Honolulu on board that they held precisely the same view.

One of our passengers is Dr. Sidney Bourne Swift, who for several years has been in the employ of the Oceanic Steamship Company and who has recently received from the Hawaiian Government the appointment of physician to the lepers segregated by legal enactment on the Island of Molokai. The doctor is taking his family with him and seems to have no fears for himself, his wife or his children. He says there is more danger of taking leprosy in the Chinatowns of the Pacific Coast than there is in the Hawaiian leper settlement with its strict sanitary regulations. He asserts that there are dozens of lepers among the Chinese in California, Oregon and Nevada, and that with the usual laxity of municipal government in the United States leprosy will soon become prevalent among our people.

Three loud whistles from the Australia sent the friends of passengers ashore. Then the gang-planks were pulled aboard and amid good-byes and the waving of hands and handkerchiefs our good ship rounded out of her dock and turned her bow toward the Golden Gate. As we passed Alcatraz, the Presidio and lofty Tamalpais, I thought of Bayard Taylor's fine description of this most beautiful bay when he came to San Francisco in 1850, and of the mighty changes in California, the rest of the United States and the world in those less than two score years—changes too great and too numerous to be mentioned here. By 6 o'clock we had crossed the bar and passed the Farallone islands, and before dark

"I had seen the land of all I loved  
 Fade in the distance dim."  
 Before turning in for the night I had seen the dinners of several passengers fade also, and not being a first-rate sailor myself, I was among this unfortunate number.

Wednesday morning found us on a rolling sea and disposed to keep our staterooms, but in a few hours the worst was over, for the fine weather and quieting ocean overcame all sea-sickness. To-day everybody is on deck and the sea is as smooth as glass. Surely this ocean is the Pacific.

At noon each day an officer posts, for the information of passengers, the distance traveled during the twenty-four hours just passed, the latitude, longitude and the course of the ship. The last record in the ship's log shows that we are 1,245 miles from San Francisco, in latitude 23 degrees 45 minutes north, in longitude 144 degrees 51 minutes west; course south, 63 minutes west. The entire distance from San Francisco to Honolulu is 2,304 miles, and at our present rate we shall easily reach our destination by noon of the 26th.

Just as Senator Forbes had given me his promise to lecture for the Methodist Sunday School in Reno on Wednesday when he returns from his trip around the world, the dinner gong sounds and so I close this letter.

## OVER THE WIRES.

**The Irish Leader Still in Hot Water.**

**Anschlag, the Murderer, will Swing.**

**Preparing to Receive Blaine—A Pacific Cable Contemplated—Miscellaneous.**

**MORTON NOTIFIED.**

**Notice of California Officially Notifies the Vice-Presidential Aspirant.**

New York, July 7.—The members of the committee to officially notify Levi P. Morton of his nomination for the Vice-Presidency were astir early this morning. M. M. Estee of California, chairman of the committee, was receiving visitors in the parlor of the Murray Hall hotel at 9 o'clock. Secretary Dougherty worked most of the night and looked weary this morning. He went to the Grand Central depot at 9 o'clock, and when he returned to the committee parlor he found half a dozen delegates awaiting him. As they strolled in Captain Dougherty had each affix his signature to the address which was to be presented to Mr. Morton. This document is very brief and general in its terms, filling less than a single page of parchment paper. Delegates Hendricks, Root and Carson, the colored contingent, did not meet the party at the hotel, and were not at the depot when the committee entered the special drawing room car at half-past ten o'clock. Ex-Governor Charles Foster of Ohio did not accompany the committee. The other gentlemen composing the committee all left, as well as substitutes from other States.

Soon after starting Secretary Dougherty convened the committee for a meeting on ways and means, and each member of the committee then deposited with the Secretary his pro rata share of the expenses of transportation. The time of the trip was consumed in discussing the political situation.

**ANSCHLAG ANGERED.**

**He Thought that Governor Waterman Would Save His Neck.**

Los Angeles, July 9.—Anschlag, the murderer of the Hitchcocks at Garden Grove, was shown a dispatch this morning stating that Governor Waterman had refused to interfere in his behalf. Anschlag grew very angry, but showed no fear or despair. He said that he never wrote to the Governor asking clemency, but it is known that he has been living in the hope that the Governor would commute the death sentence to life imprisonment. Word has been received that Anschlag's mother died of a broken heart on account of her son's crime. The murderer has been notified that his share of the paternal estate in Germany is \$6,000, but he says he will give his lawyers no more unless they secure him another trial.

**HEWITT DECLINES.**

**He Will Not Accept the Nomination of the American Party.**

New York, July 9.—Mayor Hewitt was shown a dispatch from San Francisco stating that the American party convention of California endorsed him as a candidate for the Presidency of the United States. The Mayor said: "I would not accept any nomination for the Presidency under any circumstances. I am sixty-five years of age and have made a fool of myself a great many times during that long period, but I am not going to make such a fool of myself as to accept a nomination for the Presidency."

**Preparing to Receive Blaine.**

New York, July 8.—Preparations to receive Blaine on his return are already being made on a large scale. The Republican Clubs of New York, which have a committee actively at work making arrangements for his reception, have applications from many clubs—some in distant cities—for places in the parade. A fleet of steamers will meet the vessel on which he arrives, and an escort made up of clubs will meet him at the wharf and accompany him to his hotel.

**Pacific Coast Failures.**

SAN FRANCISCO, July 9.—The Bradstreet Mercantile Agency reports 424 failures in the Pacific Coast States and Territories for the first six months of 1888, with assets, \$3,534,090, and liabilities, \$6,381,046, as compared with 348 for the previous six months, with assets, \$5,128,331, and liabilities, \$9,937,120, and 423 for the corresponding six months of 1887, with assets, \$41,340, and liabilities, \$2,102,376.

**The French Copper King.**

LONDON, July 9.—A financial crash of considerable dimensions is imminent. The French Copper Ring, according to accredited statements, is about to break up and involve a number of the great money firms of Europe. *Vanity Fair* says the crash will work more widespread ruin in France than has ever been inflicted on a nation by any other similar affair.

**The Champion Bigamist.**

DETROIT, July 8.—J. A. Brown, the bigamist recently arrested at Chicago, was arraigned yesterday. He pleaded not guilty and was remanded to jail. It is stated now that Brown married no less than thirty-two times, and many of his dupes are expected at the trial.

**Walt Whitman Failing.**

PHILADELPHIA, July 9.—Walt Whitman continues to grow weaker at his Camden home. He realizes his condition is about hopeless, but works bravely for the proof of his forthcoming book, "November Boogie." He is in trouble in progressive paralysis.

## THE PACIFIC CABLE.

**To be Laid From Vancouver to Australia in the Near Future.**

MONTREAL, July 9.—A cable from London says: The complete breakdown of the Eastern Telegraph company's system between Java and Port Darwin is creating a strong feeling in the commercial public in favor of a Pacific cable from Vancouver to Australia. The feeling was voiced at the annual meeting of the new Oriental bank. The chairman said he went East recently via the Canadian Pacific, and was convinced that a cable via Canada and Australia would greatly benefit the commerce of the empire, giving a clear line of communication through British territory. The breakdown existing in the cables emphasized the necessity of an alternative line, and increased the desire of the commercial public for double security against complete and protracted isolation. The opinion was expressed that the Imperial and Colonial Governments should hasten the proposed survey of the route.

**Parnell's Denial.**

LONDON, July 9.—The Unionist papers are prepared to believe Parnell guilty of connivance in the murders in Ireland, as alleged by the *Times*, if he does not bring an action for libel and they so declare. It is understood that Parnell is considering the advisability of bringing a suit.

After Parnell's statement in the Commons Saturday, several Conservative Unionists met and decided to ask the government to prosecute Parnell. The decision was communicated to Smith, the Home Secretary, who promised to refer the request to his colleagues at a cabinet council to-day. Smith believes that consideration of the case by the Cabinet will result in a reference to the law officers of the crown, with a view of determining the form the prosecution should take.

**Indignant Taxpayers.**

BOSTON, July 9.—A number of taxpayers have applied to the Supreme Court for an injunction to restrain the city from paying bills for hacks used by members of the Common Council on Memorial Day and on June 3d, the latter occasion being the dedication of the Washburn monument. The complaint alleges that no carriages were actually used on Decoration Day, and only two on June 3d, though the bills aggregate nearly \$1,000.

**A Chance for Nevada Jurists.**

WASHINGTON, July 9.—The President will soon fill four vacancies in the Territorial Judiciary. There is a Chief Justice and Associate Justice to be appointed for Utah and Idaho. There are about thirty applications for the positions, among them being Judge Quint and Colonel Tolcott of San Francisco, and two other residents of the southern part of California.

**Spurgeon's Religion.**

LONDON, July 9.—It is reported that Rev. Mr. Spurgeon is about to join the Presbyterian church. Rev. Robin Taylor is urging Spurgeon to meet the Pan Presbyterian council here and declare at once adhesion to that faith.

**TELEGRAPHIC BRIEVITIES.**

—General Sheridan is improving.

—Judge Gresham sailed for Europe Saturday. He will remain abroad two months.

—Warrants have been issued by the Secretary of the Treasury for the payment of \$13,767,073 on account of pensions.

—The Russian party in Serbia threaten revolution in favor of Queen Natalie, the object being to depose King Milan and to place Natalie on the throne.

—Henry Villard is expected to arrive in New York from Europe by the first of August, in time to attend the meeting of the Northern Pacific Directors.

—Locusts have caused such havoc in Algeria that 60,000 workmen and 2,000 soldiers are fighting them. The country is being devoured and famine and pestilence are certain.

—Governor Hill has called an extra session of the New York Legislature for July 17th, for the purpose of appropriating funds to provide work for the convicts in the State prison.

—Forepugh's circus train was derailed and wrecked at Fall River, Mass., Saturday morning. Several persons were hurt. Dandy, the trick horse, was killed, and a \$6,000 racer had to be shot. Two cars were totally demolished.

—King Milan has abandoned his attempt to procure a divorce from the Queen on condition he should be granted a separation. The Queen will remain abroad until the Crown Prince, who will remain with his father, attains his majority.

—The treaty between the Holy See and the United States of Columbia regarding religious matters has been ratified. The Pope intends to invite the co-operation of Catholics to bring about the total abolishment of slave dealing wherever it prevails.

—Antonio Loretto, ex-County Treasurer and a prominent Yuma (Arizona) merchant, committed suicide Saturday by shooting himself through the head. Depression, caused by sickness of several years' standing, is supposed to have been the cause.
